Prov. 9; Eph. 5

On the **PATH**

This is a path we must learn to walk if we hope to live happy lives. Wisdom isn't something secret or mysterious. It is learning to make the right choices, to live the right way. We learn wisdom from the Bible, from others who are wiser than we are, and by the experience of making good choices, as well as mistakes.

The way of wisdom is not easy. It is sometimes a hard road of difficult choices; but these choices lead to true happiness and goodness, for wisdom is from the heart of God. Choosing poorly can bring us and others great misery. *Follow the way of wisdom. Pass through the numbered spaces in order, but only once. Keep out of foolish places.*
