Mark 9:38-48

Sin puts us in a dark place; a place where we  
feel alone and apart from God and people we love.

*How many  
words that  
have to do  
with sin can  
you find in  
the cave?*

*5+ quasi-evil  
8+ semi-evil  
10+ evil*

The good news is that God isn't angry with us.  
God loves us, forgives us, and always invites  
us back into the light.

Anything that harms us, others or God's creation is called "sin." When we behave in these ways, we commit sin. God hates sin because of the damage it does to things and people he loves--like you! Our love for God and others and our respect for God's creation, make us want to stay away from sin.
